

# Still Local - Ready to Serve You

## Clear Choice is Merging with EATEL

**As you may have heard, Clear Choice is becoming EATEL in the near future. We made the decision in order to bring you better products while maintaining our local service.**

### My Story:

I grew up in Plaquemine and have been in the telecommunications business for over 35 years. I left the “big guys” five years ago to help form Clear Choice. We upgraded the network and thanks to you our business has tripled in size. We have reached a point where we need more resources to take our product offerings to the next level. I would not merge with anyone... EATEL was the only company that shares our values.

### The EATEL Story:

EATEL is based in Gonzales and is owned by the Scanlan family. They began in 1935 as an East Ascension Telephone and have expanded to become a provider of phone, internet, television, and home security. The business is still run by the family, in fact seven family members work at EATEL. They are famous for providing down home customer service and operate one of the best fiber networks in the country. I'm proud to join them and have faith that they will enhance what we have to offer you.

### More to Come!

The transition and enhancements will take place over time. You will see a new brand on our trucks and building. Eventually, our billing will convert to EATELs, however rest assured, I will still be here in Plaquemine managing the day to day operations. Best of all, I look forward to bringing you more products and services.

Check out the EATEL website: [www.eatel.com](http://www.eatel.com).

***Thank you for your business and support. Call me if you have any questions or concerns.***
